

## SE ERW Black Casing Pipes

SE ERW pipes are extensively used in agriculture, industry and construction activities like scaffolding and casing in bore wells. They are used for conveying water, gas, crude oil and chemicals at various pressures and densities over long distances. Considering the challenging and varied applications, the pipes are produced to meet very high standards of both national and international specifications .

The pipe plant is equipped with state-of-the-art machines ,slitting lines, pipe mills, galvanizing units, finishing machines and fool-proof high pressure hydro testing machines. The plant also has sufficient handling facilities, both EOT and mobile cranes supported by pipe conveyer systems.

Quality assurance begins at the raw material stage and continues right through all the manufacturing operations, till the Pipes are packed for dispatch.

# Pup Joints, Coupling and Coupling Stock

## Pup Joints

Pup Joints of Tubing (EUE / NUE) and Casing are available in length of 2 feet, 3 feet, 4 feet, 6 feet, 8 feet, 10 feet etc.

## Coupling Stock

Coupling Stocks for all sizes of Casing and Tubing are available in the length of 3.0 to 12.0 mtrs.

# DRILL PIPES

Drill Pipes are Seamless Steel Tubulars with Weld-On Tool Joints that are used to connect a drill rig's surface equipment with its drilling equipment at the bottom of a well. Drill Pipes are manufactured to withstand severe internal and external pressure, distortion, bending and vibration. Every weld is monitored, tested and recorded.
